The rainy weather of the past few weeks seems to have cleared up at last. To-day is clear, bright and warm. Although the rain has been almost continuous for so long, it has not been very heavy at any time, and as it has been accompanied by warm weather, it has not affected the roads as much as might be expected, while it has done the largest possible amount of good to the growing crop. There is now every prospect of one of the best all around crops this district ever saw.

A PICNIC of the patrons of industry was held in Murdoch McLeod's grove, Belmont, on Wednesday afternoon, at which there was a large attendance from all parts of the district. The meeting was addressed by Reverends Newton, Wilson, Elmette, Peck and Macdonald, and by Messrs. M. McKinley, Sturgeon, P. C. Hamilton, of Clover Bar, and C. R. Beck, of Belmont. Lunch was served between 12 and 1 o'clock. The sports included a tug of war between married and single men, the former winning; quoits and other games.

W. P. EVANS of the BULLETIN, saw a humming bird near Fraser & Co.'s mill a few days ago. These birds are a rarity in this neighborhood but at the foot of the mountains near the Jasper house they are very numerous showing that the climate must be more mild there than here.

Mr. Brown went in with an elaborate hunting outfit and brought it safely out again. The game killed by himself and two companions was a black tailed deer, 40 foxes, 10 coyotes a few lynx and a dozen muskrats. He pronounced the country a feast for hunting purposes.

Mr. Brown probably expected the game to walk up to his cabin door and ask to be taken in out of the wet.

BUTTER is abundant at 15c to 20c. Some of the stores are refusing butter altogether as they have so much on hand, and they do not get enough butter of the quality fit for export at a price at which they can export it to warrant them in trying to open up an outside trade. A very large amount of very good butter is made in the Edmonton district, but this generally finds a ready market for home consumption. It all the butter that is made were of the higher standard, a very large export trade could be done and the average price would be better.

A MEETING of half breeds was held at Lake St. Ann on June 16th at which it was decided to petition the government to amend the law regarding fishing. As the law stands at present the people are unable to pay the license fee demanded and they have no other means of support. They ask the government either to permit them to fish at the prohibited season when their chief catch is made, or to provide them with means of support in place of the fish which is their sole support now. A similar petition is being sent from the half breeds of Lac la Biche.

TARIFF REFORM.
The Richmond Guardian, a paper very ably conducted on independent conservative lines, speaks frankly on the question of tariff reform. It says: Tariff reform is in the air and it is spreading. The rural voters don't care a snap about Mr. McCarthy's inconsistencies, his instability, his weak logic, or his hopelessly bad statistics—he is leading a party that have made up their minds to have tariff reform; whether that policy is a wise one or the reverse they are not disposed to debate;—they are feeling the pressure of hard times,—they cannot tell why the times should be worse for them than for the residents of the cities and towns; nor do they stop to enquire if, indeed, they are worse off than their urban neighbors—what they do know is that they are hard up and they put it down to the tariff. Now it is obvious to us, and it ought to be plain to the government and its organs, that this conviction, or let us say this delusion, has got too firm a hold on the farmers to be reasoned away; and if Mr. Foster is as wise as we take him to be he will hurry up his proposals for responding to some extent at least, to the growing demand for a lower tariff. He may find before many months that the McCarthys have cut him off; and then he may have to do one of two things—either step down and out or reform much further than he is now disposed to do, and much more than it will be wise to do. For thirty-five years we have steadily stood by the conservatives and their policy; we were protectionists years before the party adopted it, and we stand by the policy to-day as firmly as we ever did; but we do not think it is necessary to protect everything and everybody and load us down with duties that are beyond the necessities of the case, and in addition to that continue the system all round after it has accomplished its work. In all these years we have acted the part of a candid friend, and that is our attitude now. We regret to notice a disposition on the part of some of our leading men on the government side to pool the allegation that there is a condition of unrest amongst the party. Never in all our experience have we known to exist so strong a disposition to bolt,—not to join the liberals,—for free trade is too utterly absurd to be embraced by the practical men who are thinking out this tariff problem, but to McCarthyism, and heaven knows how far in the flush of success he may lead the dissatisfied and irate contingent that any dilly dally in the policy of the government may drive away. We think it to be woefully bad tactics to belittle this tariff reform crusade and the men who are leading it. The papers that do it must be either hopelessly blind to the drift of public opinion or wickedly false in giving expression to their views. They are bad advisers; "Tell the truth and shame the devil," albeit a maxim somewhat coarsely expressed, is what the conservative papers should do in the present disorganized state of the party.

Jake Gaudaur, of Orillia, Ontario, won the final heat in the sculling regatta held in Austin, Texas on June 10th. He captured the race easily from the five other competitors in 19 minutes and 6 seconds, which beats the record for three miles with a turn. The best previous time for the distance was 19.31, made also by Gaudaur at Duluth in 1890. Peterson, the Californian, was second and Stansbury, the champion of the world, third. Hanlan was fourth, Teemer fifth and Rogers sixth. Peterson took the lead in the early part of the race and after a half mile had been rowed was two lengths ahead. At the mile Stansbury was in the lead, half a length in front of Gaudaur and Peterson, who were close together. At the turn Gaudaur took the lead and rounded his buoy half a length ahead of Stansbury, who was one length in advance of Peterson. The Canadian rowed a steady race on the way home and won with considerable ease by two lengths from Peterson.

Rumored in Winnipeg that lieutenant-governor Schultz and A. W. Ross, M. P. will change places. Mr. Ross becoming lieutenant-governor and Dr. Schultz becoming a candidate for the representation of L'Ange in the commons.

Petroleum! PETROLEUM
For some months past it has been known that an important discovery of indications of Petroleum, had been made at Egg Lake, about 18 miles northwest of

Fort Saskatchewan
Some believed it and others did not. However, Mr. J. B. Tyrrell, of the Dominion Government Geological Survey, has visited the lake, and satisfied himself that there are ample indications to warrant development operations being begun. (Vide, Edmonton "BULLETIN," of 1st instant.) This being so—what do the Dominion and Territorial Governments, and also the Canadian Pacific Railway, propose doing about it? And when? All three are equally interested. It is the duty of every person in Northern Alberta to make the most of such an important discovery of mineral wealth in our district, and to keep things agitated until something is done to develop or are we all dead to the advantage to be gained?

Fort Saskatchewan
Is the Best Point in Northern Alberta for Investing in.

SPECIAL COUNCIL MEETING.

A special meeting of the council to consider the advisability of appointing Mayor McCauley as a delegate to Ottawa in company with the members of Calgary and Lethbridge, was held on Monday evening, June 10th. Present—Mayor McCauley and councilmen McDougall, McLeod, Strang, Sanderson and Gallagher.

Sanderson—Gallagher—moved that owing to the numerous delays immigrants coming from the Western States are subjected to with their stock and effects in coming into Alberta, and also owing to the fact that they were promised by authorized agents of the government, which has had the effect of stopping almost all immigration to this district, therefore this council deem it expedient that the mayor should form one of the delegation to Ottawa from the district of Alberta to interview the government with reference to other matters.

McLeod—Strang—moved that the sum of \$150 be given the mayor to defray his expenses to Ottawa.

Strang—McDougall—moved that in the interests of this and the whole northern district the mayor is authorized to interview the minister of public works with reference to the proposed or promised traffic bridge across the Saskatchewan at Edmonton, and that this council deem the work of such necessity that should the government not feel disposed to immediately carry out this pressing undertaking the mayor is authorized to negotiate with the government for this council to undertake the work themselves, providing the government subsidize the same to the extent of \$50,000.

Strang—Sanderson—moved that councillor McDougall be appointed acting mayor, to hold office during the absence of the mayor.
